Subject: ACA 16 - A resolution relating to the environment - SUPPORT

Dear Assembly Member Bryan:

The Peace and Freedom Party supports this amendment to the California Constitution which declares that the people of California have a right to clean air and water and a healthy environment.

It is time for California to join other states in assuring its citizens the right to a clean environment. Safe, unpolluted air and water are basic needs for human health. All too often these environmental needs are sacrificed to business interests, corporate greed, and real estate speculation. ACA 16 offers the possibility of putting environmental considerations first.

Although this amendment is short on specific details and potential financial costs, this statement of principle is an important first step in prioritizing a healthy environment over lesser considerations.

The Peace and Freedom Party has always advocated for a clean and healthy environment and our platform in part reads "Restore and protect air, water, land and ecosystems". We are pleased to support ACA 16.
