Sacramento, CA 95814

Subject: AB 2575 (Ortega): Safeguards for AI in Health Care Support

Dear Assembly Member Ortega:

I am writing to you on behalf of the Peace and Freedom Party of California in support of AB 2575 (Ortega).

There are several bills in the Legislature regulating the use of Artificial Intelligence (AI). AB 2575 is one of them. It sets up safeguards for patients and health care workers when AI tools are used in health care. The use of AI shapes clinical decisions and working conditions, lacks transparency, undermines protections for professional judgement, and does not hold developers and deploying entities accountable for harm, thereby creating real risk for patients and undermining professional standards in health care.

AB 2575 requires health care entities, including hospitals and clinics, which use AI tools in patient care to disclose when they are using these tools and provide information about the tool's developer, intended use, and data inputs, so that clinicians can make informed decisions about patient care. AB 2575 affirms health care workers' right to exercise their independent judgment and override unsafe or inappropriate AI outputs and prohibits employer retaliation against workers for doing so. And AB 2575 holds AI developers and deployers accountable for harm caused by their system.

For these reasons and many others, the Peace and Freedom Party supports AB 2575 and urges legislators at all committees and floor levels to vote aye on it. To learn more about our position on AB 2575, contact me at (916) 320-9186 or CTWeberVoters@att.net.

Sincerely,

C. T. Weber

C. T. Weber
